

**NOTICE OF INTENT TO REISSUE A  
HAZARDOUS WASTE MANAGEMENT POST-CLOSURE PERMIT  
YALE SECURITY, INC.  
TND 09 505 0019, TNHW-013A**

The Tennessee Department of Environment and Conservation's (TDEC) Division of Solid Waste Management (DSWM) proposes to reissue a hazardous waste management post-closure permit to Yale Security, Inc., EPA ID Number TND 09 505 0019. The facility's address is [100 Yale Avenue, Lenoir City, Loudon County](#), Tennessee, which is located south of US Highway 11 (West Broadway Street) at the end of C Street. Issuance of the [draft permit](#) follows the pre-application public meeting conducted by the facility on May 15, 2002 as required by Tennessee Rule 1200-1-11-.07(2)(c)3(i). No comments were received at this meeting.

The proposed permit requires Yale Security, Inc. (Yale) to continue post-closure care and monitoring activities for a closed hazardous waste landfill. Yale was issued Tennessee Permit No. TNHW-013A on September 30, 1992. The ten-year permit required the facility to perform long-term care for a hazardous waste surface impoundment that contained plating wastes. The impoundment was dewatered, the sediments stabilized and the unit was filled and capped as a landfill. Yale submitted an application to DSWM for renewal of the facility's permit in May, 2002, thus, enabling the facility to continue post-closure care and monitoring under the current permit until a final decision is made. The proposed permit will continue the requirements for Yale to provide site security, maintain the landfill cover and to monitor and remediate the groundwater that has leaked from the landfill, which is contaminated with chromium. A fact sheet has been prepared that summarizes the draft permit requirements for the hazardous waste management unit.

The proposed permit requires Yale to investigate any other release of hazardous waste or hazardous constituents at the facility, regardless of the time at which waste was placed in a unit, and to take appropriate corrective action for any such release. As part of the previous permit, Yale was required to investigate seven areas to determine the nature and extent of possible releases. The list of areas was changed to six solid waste management units (SWMUs) and ten areas of concern (AOCs). Ten of the SWMUs and AOCs were found to have no releases and were added to the No Further Action list in the proposed permit. Since two other units are combined into the hazardous waste management unit and being remediated under the post-closure care requirements of the permit, they do not require further action in accordance with the corrective action conditions of the permit. The proposed permit requires Yale to continue the remediation of groundwater for metals and Trichloroethylene (TCE), including its degradational byproducts, under the Interim Measures implemented as part of the corrective action process. The permit will also require notification of imminent hazards, and when applicable, compliance with the requirements developed under land disposal restrictions and organic air emission standards.

The permit is proposed to be reissued under the authority of the Tennessee Hazardous Waste Management Act of 1977, as amended, Tennessee Code Annotated, Section 68-212-101 et seq., and Rule Chapter 1200-1-11, [Hazardous Waste Management](#).

Copies of Yale's application, draft permit, fact sheet and public notice are available for public inspection at the Lenoir City Public Library, 100 West Broadway, Lenoir City, TN (865-986-3210). These materials are also available for public inspection during normal business hours, 8:00 a.m. to 4:30 p.m., Monday through Friday, except legal holidays, at the TDEC Knoxville Environmental Field Office, Public Access Area, 3711 Middlebrook Pike, Knoxville, TN 37921 (865-594-6035).

Any interested person may submit written comments on DSWM's proposal or request a public hearing by contacting: Charles Burroughs; Corrective Action Section; Division of Solid Waste Management; TDEC; 5th Floor, L & C Tower; 401 Church Street; Nashville, TN 37243-1535; (615-532-0863) or e-mail to [charles.burroughs@state.tn.us](mailto:charles.burroughs@state.tn.us). **The comments or request for a public hearing must be received by 4:30 p.m., November 14, 2008** to assure consideration. A request for a hearing shall be in writing, including the contact information of the requestor, and shall state the nature of the issues to be raised at the hearing. After considering all public comments received, the DSWM Director will issue a final permit decision and a Response to Comments.

TDEC is committed to principles of equal opportunity, equal access and affirmative action. Contact the EEO/AA Coordinator at 1-888-867-7455 or the ADA Coordinator at 1-866-253-5827 for further information. Hearing impaired callers may use the Tennessee Relay Service (1-800-848-0298).

Persons who wish to be on DSWM's mailing list should request a Mailing List Request form by calling or writing: Public Participation Officer; Division of Solid Waste Management; TDEC; 5th Floor, L & C Tower; 401 Church St.; Nashville, TN 37243-1535; (615-532-0798) or e-mail [solid.waste@state.tn.us](mailto:solid.waste@state.tn.us).

**NOTICE ISSUED: September 29, 2008**
